

Consultation by Bathampton Parish Council on Consultant's report to B&NES

## **Give your views on the options for improving safety for children, their families & other residents on the Canal Bridge**

**Option 1. Traffic Give Way at the bridge.** Yellow box marking across the canal bridge which drivers should only enter if their exit is clear. Drivers proceed with caution from both sides and give way to each other. A single lane on the bridge with footpaths on each side.

**Option 2. Traffic signals at the canal bridge** to control access to a single lane with footpaths on each side. The signals software and vehicle sensors have the capability to ensure the controls respond intelligently to changing patterns and volumes of traffic.

### **1. Which of the following do you support ? Tick as appropriate.**

Option 1                      \_\_\_\_\_                      Option 2                      \_\_\_\_\_  
Neither of these                      \_\_\_\_\_                      Alternative Option                      \_\_\_\_\_

### **2. Please give the main reasons for your conclusion(s).**

**(Continue over page, or attach a page, if required)**
